VERSAFLOOR™ - P3

The  
**TILE**  
MOB®

Inspired by Australia's natural beauty and lifestyle, Versafloor™ is a superb collection of unglazed porcelain tile with outstanding quality and performance.

**A BETTER TILE FOR OUR GREEN ENVIRONMENT** - VERSAFLOOR™ tile is a green environmentally friendly product when compared to other porcelain tiles in the market. VERSAFLOOR™ tile consists of two very distinctive layers of clay pressed together and fired at a high temperature to form one solid full body porcelain tile. The top layer, which makes up the true color and surface finish of the tile, requires less additives and color pigment and with the main remaining body made in neutral clay, recycled or broken tiles are added to the mix.

## MAIN FEATURES

- VERSAFLOOR™ TILE - is manufactured to fully comply with ISO 9001-2000 INTERNATIONAL CERTIFICATION requirements, for guaranteed high-quality production results.
- Each VERSAFLOOR™ TILE has been designed by greatly replicating the natural beauty of stone and its outstanding performance in hardness, strength and reliability. This range offers you a fantastic choice in colours, textures and sizes. With a top slip resistant rating of R12 (Oil-Wet Ramp Test), these products can genuinely meet the needs and requirements of internal and external applications for all residential and commercial areas.
- All tiles are full-body unglazed porcelain in 100x300mm, 150x600mm, 300x300mm, 300x600mm, 600x600mm.
- Available in 12 standard colours and 6 surfaces - Polished, Honed R9, Matt R10, Flamed R11, Rockstyle R11and Linen R12.
- Suitable for application internal & external - wall & floor
- Slip resistant - Matt: R10, Flamed/Rockstyle: R11 and Linen: R12.
- Different sizes are available for special order (subject to min qty). Larger rectangular sizes include: 400x800mm, 600x900mm & 600x1200mm and square sizes including: 400x400mm, 800x800mm.

The  
**TILE.<sup>®</sup> MOB**

► tiles ► stone ► mosaics ► slate ► terracotta

Introducing: TECHNICRYSTAL™ – a new collection that brings a cutting edge combination of technology and modern ideas to your innovative living space.

#### THE INNOVATION

A world first, full body fired porcelain tile taking the notion of Engineered Stone to a new generation of use; enjoyable in absolute freedom and affordability in all applications.

#### THE STYLE

Hi-tech surface, with choice between polished and silk (honed) surface finish. A perfect touchdown in unaltered simplicity and tradition, with an attraction of sparkling lights in between. Offering emotion and warmth, but still creating an elegant setting.

#### THE COLOUR

In 7 delicate chromatic colour grades, TECHNICRYSTAL™ offers to the observer an aesthetic beauty and uniqueness to match any emerging trend. With many colours to choose from, there is always one to meet your taste.

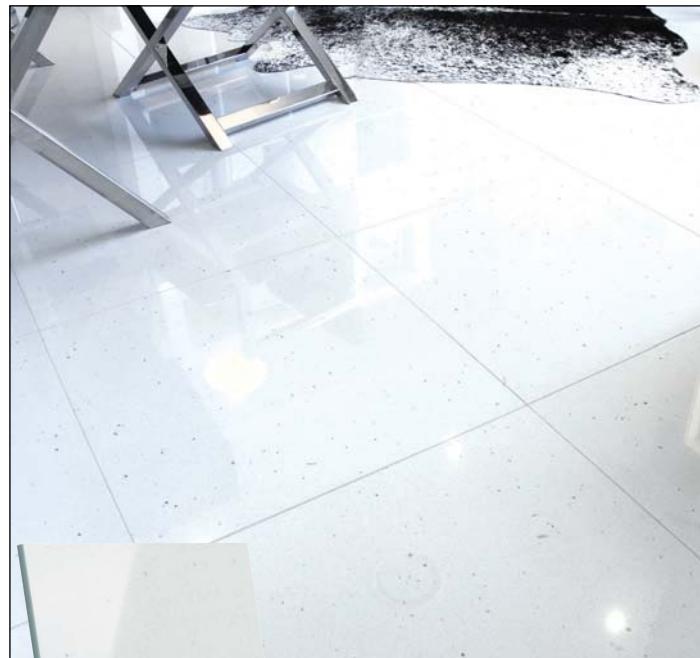

A better choice for our green environment TECHNICRYSTAL™ tile is manufactured through a Double Loading process where the top coloured material layer of an approximate 3mm thickness is mixed with recycled glass particles and the lower and different layer allows the introduction of some recycled material without jeopardizing the quality of the top surface of the tile.
